Welcome to Apollo Distribution

We believe the bathroom is the most important room in the house. In the morning we use the bathroom to get ready and center ourselves as we prepare for the challenges of the day. In the evening we use the bathroom to relax and rejuvenate before going to sleep. Because our day begins and ends with the bathroom it is important that it is a peaceful and private sanctuary. All of our product lines have been created with this goal in mind by pairing high quality, durable materials with cutting edge designs. We make sure each product we produce deserves to be in the most important room in the house, and enhances the beginning and end of each day.

Glass shower doors and tub enclosures play an important role in your bathroom. Not only do these structures keep water contained within the bath and shower where it belongs, but also they impact the overall style and decor of your space. While traditional shower doors and tub enclosures relied on a metal frame for structural support and strength, homeowners now have the option to choose frameless enclosures, which eliminate frames in favor of thicker glass and heavy hardware. We make sure each product we produce deserves to be in the most important room in the house, and enhances the beginning and end of each day.

Pompei

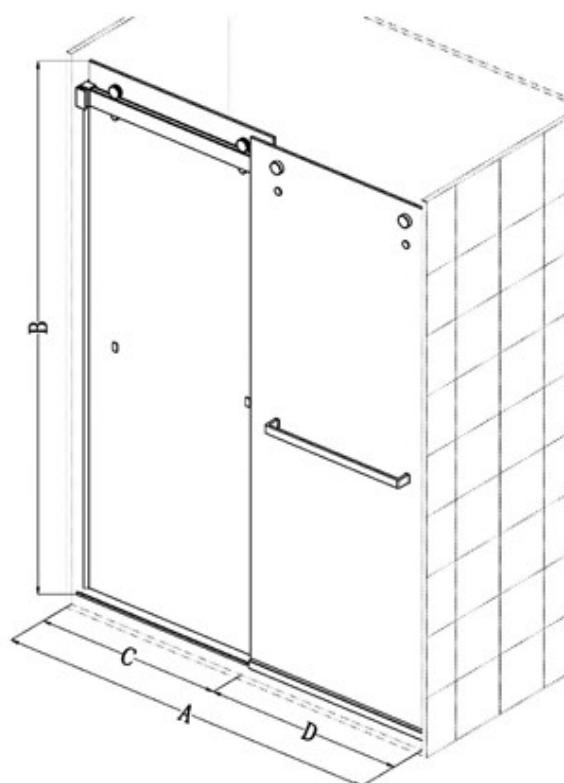

Bypass Frameless Shower Door.

Pompei

The Pompei frameless shower door is the ultimate in comfort, quality, and design. Featuring solid brass hardware and 3/8" glass, this shower door is sure to please. The Pompei model is a bypass shower door. By allowing both panels to slide you get the ultimate in comfort. The Pompei shower door comes with our Enduro shower door protective coating. Enduro ensures that water simply "glides" off the glass to reduce spots and streaks. The Enduro coating can last for 10 years. The Pompei shower door is offered in two amazing finishes - Chrome Polish and Brushed Nickel - that are sure to fit any design style. With high-end quality and top of the notch design, the Pompei shower door is a great addition to any bathroom!
