

Dark Sky Reflector

The Dark Sky Reflector is affordable and can be used on new or existing lighting fixtures to improve your impact on the environment. The reflector meets both old and new IES criteria for Uplight minimization. The amount of cut-off you require can be achieved through the proper positioning of the component. With the three standard mounting heights, you can achieve maximum usable light while still allowing only a minimal amount of Uplight.

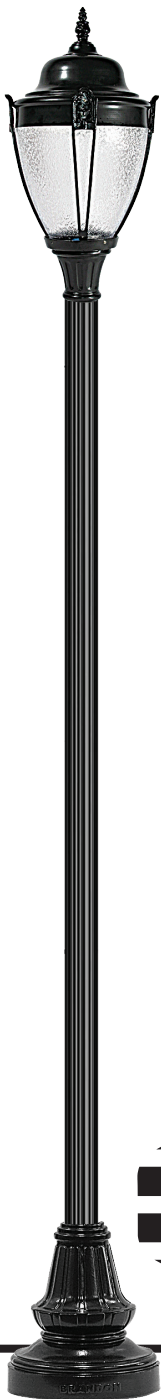

DSR-MOG-For mogul socket
DSR-MED-For medium socket

Keep The Traditional Look

While Still Improving Your Impact On The Environment

- High Downlight Efficiency
- Low Uplight Levels
- Ideal For Retrofits
- Easy to Install
- Easy Access for Lamp Replacement
- Adjustable Light Output Levels
- Use with 175W MH Max (237°F/114°C)

ONLY \$68
