

## MARBELLA TUBELESS X-GUARD

### THE ROAD TIRE THAT LETS YOU LEAVE THE ROAD BEHIND

We know you want to take that left turn and explore the fire road, or take that single-track shortcut home, but not every bike can fit a 40mm wide gravel tire. The **Marbella Tubeless X-Guard** lets you take your road bike where other roadies fear to go.

The combination of an aggressive tread with X-guard bead-to-bead puncture protection, in a tubeless tire that fits any bike, removes every barrier and every excuse. Every road is now open to you. This is your gateway experience to the world of gravel.

SIZE	BEAD	PSI	WEIGHT
