

Chem-X Snake Oil

1. Product and Company Identification

Product Identifier

Trade Name: Chem-X Snake Oil
 Item Number(s):

Relevant Identified Uses of the Substance or Mixture:

Ceramic wash/wax for vehicles

Restrictions on Use: For Industrial Use Only

Manufacturer/Supplier:

Chem-X
 270 Main St, Unit X
 Agawam, MA 01001
 (800) 624-5403

**FOR EMERGENCIES INVOLVING A SPILL, LEAK, FIRE, EXPOSURE
 OR ACCIDENT CONTACT: INFOTRAC (800-535-5053)**

2. Hazards(s) Identification

GHS Classification and Label Elements of the Product

Hazard Pictograms:

Signal Words:

Danger, warning

<u>Hazard Category</u>	<u>Signal Word</u>	<u>Hazard Statement</u>
1	Danger H318	Causes serious eye damage
2	Danger H315	Skin irritation

Precautionary Statements	
Prevention	Response

Chem-X Snake Oil

P201	Obtain special instructions before use.	P302 & P352	If on skin: Wash with plenty of soap and water.
P202	Do not handle until all safety precautions have been read and understood.	P305, P351, P338, & P310	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center.
P264	Wash skin thoroughly after handling.	P332 & P313	If skin irritation occurs: Get medical advice/ attention.
P280	Wear eye protection and protective gloves while handling.	P337 & P313	If eye irritation persists: Get medical advice/ attention.
		P362 & P364	Take off contaminated clothing and wash it before reuse.
Storage		Disposal	
P405	Store locked up.	P501	Dispose of contents/ container according to local/ regional regulations.

3. Composition/Information on Ingredients

Chemical Characterization: Mixture

Component Name	CAS #	Concentration % by Weight	GHS Hazard Codes
<i>Proprietary Blend</i>		50 - 60	H318, H315

4. First Aid Measures

Eye Contact: Rinse cautiously with water for at least 15 minutes. Do not rub eyes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.

Skin Contact: Wash off immediately with soap and plenty of water for a minimum of 15 minutes. Get medical attention if irritation develops and persists.

Ingestion: Immediately rinse mouth and drink plenty of water. Do not induce vomiting. Get medical attention if symptoms occur. Do not give anything by mouth to an unconscious person. Immediately call poison control or doctor/physician.

Inhalation: Remove to fresh air. Get medical attention immediately if symptoms occur.

5. Fire Fighting Measures

Chem-X Snake Oil

Suitable Extinguishing Media:

The product is not flammable.
Extinguish with alcohol-resistant foam, carbon dioxide, dry powder, or water fog.

Specific Fire Fighting Measures:

Apply fire extinguishing media from a safe distance to cool and protect surrounding area.

Unusual Fire and Explosion Hazards:

Do NOT use water jet as an extinguisher, as this will spread the fire.

Special Protective Equipment and Precautions for Fire Fighters:

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.
Use personal protection equipment.
Avoid breathing fire gases or vapors. Evacuate area.

6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures:

Wear personal protective equipment as described in Section 8 of this safety data sheet.
No action shall be taken without appropriate training or involving any personal risk.
Do not touch or walk into spilled material.
Dispose of according to State, Federal, and Local regulations.

Environmental Precautions: Methods For Cleaning Up

Avoid discharge into waterways or onto the ground.
Wear personal protective equipment as described in Section 8 of this safety data sheet.
Clear up spills immediately and dispose of waste safely and properly.
Spillages: Absorb spillage with non-combustible, absorbent material. The contaminated absorbent may pose the same hazard as the spilled material. Collect and place in suitable properly labeled waste disposal containers and seal securely. Remove the containers from the area as soon as possible. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13 of this safety data sheet.

7. Handling and Storage

Precautions for Safe Handling:

Usage Precautions

Wear protective clothing as described in Section 8 of this safety data sheet.

Chem-X Snake Oil

Keep away from food, and drink.
Keep container tightly sealed when not in use.

Avoid eye and skin contact.
Use only with adequate ventilation.
Avoid inhaling vapor or mist.
Keep away from fumes and hot surfaces.
Handle in accordance with good industrial hygiene and safety practice.

Advice on general occupational hygiene:

See Section 4 of this safety data sheet for first aid measures if contact occurs.
Take off contaminated clothing and wash before reuse.

Conditions for safe storage, including any incompatibilities:

Storage:

Storage class: Chemical storage
Keep in the original labeled container.
Store locked up.
Ensure the container is tightly sealed.
Store in a dry, well-ventilated area, away from incompatible materials, as described in Section 10 of this safety data sheet.
Protect container from damage and extreme temperatures.
Keep out of the reach of children.

8. Exposure Controls / Personal Protection

Appropriate Engineering Controls:

Provide adequate ventilation.

Eye Protection:

Wear properly fitting, chemical splash goggles and/or face shield.
An emergency eye-wash station should be available in the immediate vicinity of any potential exposure.

Skin Protection:

Wear protective clothing including gloves, lab coat, apron, or coveralls, as appropriate, to minimize skin contact.
Wear closed toed shoes.
To protect hands from chemicals, gloves should comply with OSHA 1910.138 as well as being resistant to degradation.
An emergency shower should be available in the immediate vicinity of any potential exposure.

Respiratory protection

Ensure all respiratory protective equipment is suitable for its intended use and is NIOSH approved.
Check that the respirator fits tightly, and that the filter has been changed regularly.

Chem-X Snake Oil

Gas and combination filter cartridges should comply with OSHA 1910.134.
 Full face mask respirators with replaceable filter cartridges should comply with OSHA 1910.134.
 Half mask respirators with replaceable filter cartridges should comply with OSHA 1910.134.

Environmental Exposure Controls: Keep container tightly sealed when not in use.

General Industrial Hygiene Practices: Wash after use and before use with soap and water before eating, drinking, smoking, using the toilet, and at the end of each work shift.

9. Physical and Chemical Properties

Appearance:	Clear, dark green	Viscosity:	Unknown	Odor:	Watermelon
Odor Threshold:	Unknown	Relative Density:	1.00 – 1.100 g/cm ³	pH:	4 – 5
Melting Point:	N/A	Partition coefficient: n-octanol/water	Unknown	Freezing Point:	~0°C
Initial Boiling Point:	~100°C	Decomposition Temperature:	Unknown	Boiling Range:	Unknown
Flash Point:	>200°F	Vapor Density:	Unknown	Evaporation Rate:	Unknown
Vapor Pressure:	Unknown	Solubility	100%	Flammability, Solid/Gas:	Unknown
Lower Explosive Limit:	Unknown	Auto-Ignition Temperature:	Unknown	Upper Explosive Limit:	Unknown

10. Stability and Reactivity

Reactivity: See other subsections of this Section of the safety data sheet for further details.

Stability: Stable at room temperature, and when used as recommended.
 Stable under the storage conditions mentioned in Section 7 of this safety data sheet.

Incompatible Materials: Strong oxidizing agents.

Chem-X Snake Oil

Hazardous decomposition products: Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances. Harmful gases or vapors.

11. Toxicological Information

Information on likely routes of exposure: inhalation, skin contact, ingestion, eye contact

Skin corrosion/irritation: Causes skin irritation

Serious eye damage/irritation: Causes serious eye damage
Symptoms may include burns, eye pain, profuse watering of the eyes, redness of the eyes

Ingestion: May cause irritation, nausea, vomiting, and diarrhea

12. Ecological Information

Not regarded as dangerous for the environment.
Large or frequent spills may have hazardous effects on the environment.

13. Disposal Considerations

Waste Disposal: Dispose of according to Federal, State and Local regulations. Avoid release to the environment. Do not empty into drains. Do not reuse empty containers.
EPA Hazardous Waste: Not classified as a hazardous waste.

14. Transport Information

General information

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, DOT)

UN Number

Not applicable.

UN proper shipping name

Not applicable.

Transport hazard class(es)

No transport warning sign required.

Transport labels

No transport warning sign required.

DOT transport labels

No transport warning sign required. Not applicable.

Environmental hazards

Not an environmentally hazardous substance.

Special precautions for user

Not applicable.

DOT TIH Zone

Chem-X Snake Oil

Not applicable.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

15. Regulatory Information

Inventory Status: All components included on the **TSCA, and DSL/NDSL** inventory lists.

Federal Regulations: All functional components of this product are listed on the **TSCA** inventory.

SARA Title III Hazard Classes:

- Reactive Hazard: No
- Release of Pressure: No
- Acute Health Hazard: Yes
- Chronic Health Hazard: No

Other Information:

NFPA Ratings

- Health:** 3 (Severe)
 - Fire:** 0 (Minimal)
 - Stability:** 0 (Minimal)
- Protection H – Corrosive Liquid

This information is furnished without warranty, expressed or implied, and is believed to be accurate to the best knowledge of Chem-X. The data on this SDS relates only to the specific material design herein. Chem-X assumes no legal responsibility for use or reliance upon this data. This product has been classified according to the hazard criteria of the CPR and the SDS contains all the information required by the CPR.
