

# 0-90 NP3™ ADJUSTABLE BENCH

The Sorinex NP3™ Adjustable Bench is adjustable to 7 positions; 0°, 15°, 30°, 45°, 60°, 75° and 90°. Urethane wheels and an integrated vertical rubber storage stopper make this bench extremely versatile and easy to move in and out of working areas. The entire frame is constructed of 11-gauge and 7-gauge 2" square steel bent tubing with butt-type miter corners and 70,000 PSI full-pass mig welds. All open ends are capped with welded-on steel / rubber caps. All uprights are supported and gusseted for maximum integrity. All attachment bolts are 1/2" diameter grade #5 with anti-vibration locking systems. Wide set 10" bearing blocks for 3/4" pivot pin to ensure back pad stability and longevity. Flat stock, gravity-activated angle support. Bench pads are made with 3/4" birch plywood backboard with all corners and edges rounded; 1" thick high-density, non-moisture absorbing, closed-cell rebound foam covered with fully-sewn premium naugahyde leather.

## SPECIFICATIONS
