

LEGENDARY SERIES™

FLOORING **SORINEX.** | **ecore™**

HISTORY

Since 1980, Sorinex has designed the most innovative and versatile weight rooms in strength and conditioning. During these years we have been constantly underwhelmed with the flooring options and the lack of durability and toughness claimed. To find the best solution to this problem Sorinex has partnered with Ecore Athletic, a division of Ecore, one of the largest flooring manufacturers in the United States. The deep history of the two companies spans over 120 years in strength training and the flooring industry. Since 1871, Ecore has been transforming reclaimed materials into unique products. What started with simple cork closures has evolved into a diverse portfolio of products solving complex problems in applications ranging from weight rooms and turf fields to some of the toughest training environments. Sorinex and Ecore believe that floors should elevate beyond current expectations and have created a flooring line well beyond industry standards focused on unsurpassed durability, innovation and industry leading warranty. We created a product that aligns optimal force reduction with a balanced amount of energy return to create dynamic surfaces that are catered to the athlete and the application.

BRANDED SOLUTIONS FROM THE GROUND UP

Make a strong impression and separate yourself from the crowd with unique branding options specific to the Legendary Series flooring line. Make your statement bold or subtle. Incorporate your logo, colors, and brand statements in to the floor, platforms, and base boards. Each unique branding element is water jet cut to ensure extreme detail and seamless accuracy. Pair your branded floor with the laser cut branded steel components of Sorinex equipment to create a one-of-a-kind facility.

INNOVATION

Countless hours of research and development between the top coaches, athletes, the Ecore manufacturing team and the Sorinex team have been dedicated to improving and simplifying the product, process, and customer experience with elite performance flooring. We have tested numerous color patterns to find the most aesthetically refined and resilient options. We have optimized product thickness to exceed current industry standards. No misleading names or descriptions for you to play with, simplifying your choice between our 0.5 inch and 1 inch flooring solutions. We back all of this up with an industry leading 8 and 16 year manufacturer's warranty.

1

WEAR LAYER

With the thickest wear layer available to our industry, this vulcanized EPDM rubber withstands the most common wear and tear seen among the weight room environment. Factory laminated to our base performance layer for slip resistant, life-long durability, and easy maintenance.

2

BASE LAYER

The 0.5" Legendary product features a dense base layer perfecting the balance between force reduction and energy return. Factory laminated to our resilient wear layer, this dual durometer system is built to last for strength training applications.

3

UNDERLAYMENT

This 0.5" upgrade accentuates safety and longevity in performance surfacing. Our base layer is combined with our half inch underlayment to create the Legendary 1" triple durometer system for unmatched performance, second to none.

SAFETY

Mitigating injury related to impact through shock absorption & slip resistance.

ERGONOMICS

Mitigating negative stress of impact and fatigue.

ACOUSTICS

Mitigation structure borne noise and surface generated noise. IIC, STC, NRC.

FORCE REDUCTION

40%

ENERGY RESTITUTION

53%

WARRANTY

Industry leading 8 and 16 year warranty.
