

J^XSQUAT™

Introducing the Sorinex J^XSquat™ attachment. The first rack attached Jammer Arm belt squat. In 2012, Sorinex introduced the first ever rack attached Jammer Arms that then evolved into the Adjustable Jammer Arms. Attach your J^XSquat™ attachment to fixed or Adjustable Jammer Arms and replace your big clunky belt squat machines with a modular, functional, and safe design. The J^XSquat is the most versatile belt squat on the market, with no platform required.
