

SINGLE LEG SQUAT STAND

The Sorinex Single Leg Squat Stand is the industry standard. The easily adjustable squat stand comes with 9 different height options. Give your athletes the ability to move efficiently and develop unilateral leg strength & support with a lower risk. Load your movement with dumbbells, kettlebells, Center Mass Bells®, or barbells. Maximize your versatility with the 36" model by executing non-traditional movements like hip thrusts with your back on the rolling pad.
