

# STRETCH LOOP

Stretch loops are made of heavy wall pipe with a smooth radius and can be bolted to any 3" x 3" 4-way holed tube that Sorinex produces. The 1" diameter pipe is welded onto threaded bolts for secure fastening. Use them as a handle for stretching, storage for med balls, anchor points for ropes, chin up handles, monkey bar hand holds, ladder rungs, or hooks for band work. These come in both a fully enclosed version (stretch loop) and an open-ended version (stretch half loop).

## SPECIFICATIONS

|               |                  |
|---------------|------------------|
| LENGTH        | 14"              |
| WIDTH         | 8"               |
| HEIGHT        | 2.5"             |
| PIPE DIAMETER | 1"               |
| INCLUDES      | Stretch Loop (1) |
