

# **XL SERIES™ COMPETITION BENCH**

The Sorinex XL Series Competition Bench is the ultimate competition bench press for serious lifters. The unique Sorinex Safety Strap system eliminates the risk to hit your face or throat with the bar, while still giving enough range of motion to touch your chest. Steel bars CANNOT do this. Straps allow for micro adjusting with lockouts (less than 1" increments). Soft straps also protect the bar and fingers. "Tar Cloth" no-slip bench pad allows for hard leg drive.
