

# Portable Profitability

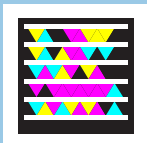

## PORTABLE BLASTING SYSTEMS

Recognized and trusted around the globe, Schmidt portable blasting systems are designed to provide the lowest pressure drop while using a wide range of media. Available in packages or individually, the low maintenance design minimizes downtime and increases productivity. Custom systems can be designed to meet specific needs with a multitude of options, these units feature normally closed, fail-safe valves and controls for greater safety and performance.

All portable units are standard with:

- Popular MV2 valve with VPI (Virtual Position Indicator)
  - G2 pneumatic deadman
- VBS (Volumetric Blowdown Suppression)\*

- Low profile makes loading of abrasive easy
- Extremely low pressure drop for increased productivity
  - 90° angled cone bottom improves abrasive flow
    - 150 psi (10.3 bar) rated
- Optional load skid protects valves and piping
  - Packages available (see details below)

VBS (Volumetric Blowdown Suppression) System

- Reduces blowdown intensity by diffusing and safely re-directing blowdown exhaust air
  - No screen or filters to clog = minimal maintenance
    - Easy to replace wear components

\* standard only on standard 3.5 and larger Combo/MV2 systems

Package 'A' includes: pneumatic remote controls, ComboValve, MV2, 55' twinline control hose, G2 deadman and moisture separator

Package 'B' includes: "A" **plus** 50' blast hose assembly and long venturi nozzle

Package 'C' includes: "B" **plus** NIOSH approved NOVA respirator and 50' air supply hose kit and airline filter

1.5 cu. ft. vessel with 1" piping - shipping weight: 130 lbs.
3.5 cu. ft. vessel with 1 1/4" piping - shipping weight: 240 lbs.
6.5 cu. ft. vessel with 1 1/2" piping - shipping weight: 316 lbs.
