Recipes for Success

About us

From the Kitchen to the Classroom

Recipeasy is a successful training tool in the professional baking industry. It currently supports individuals at any level in acquiring valuable new job skills. The app supports people with different capabilities, including those with autism, learning disabilities, and English language learners. Recipeasy has grown to support classroom learning for culinary arts, special education, transition, and life skills.

Our mission is to enrich lives with instructional technology by providing independence in learning, building confidence, and affording opportunities for success.

Scalable and Easy

Recipeasy balances powerful scalability with ease of use. Recipeasy can adapt from individual users to entire instructional groups as classroom needs grow or change. Content can be created for many different areas on the same platform such as Culinary Arts, CTE, SPED, Pre-ETS, Life Skills, and so much more. Lessons can easily be created for individuals or groups where the users learn visually or non verbally. Content creation is simple and straightforward.

Instructional Guidance

Accessing visual content such as photos and videos, as well as utilizing printed instructions along with voice-over tutorials at every step, ensures that no detail in the learning process is overlooked. The need to read cumbersome instructions is eliminated due to the additional audio and visual content provided. The need for additional staff to consistently provide hands-on assistance is also reduced or eliminated. Recipeasy is instructional technology which serves as a guidance tool for success!
