Company Overview:

We improve diversity outcomes. International Intercultural hosts curated cultural experiences that are designed to promote inclusion and reinforce key principles from diversity training. We begin with a cultural or identity perspective and seamlessly integrate diversity education into the experience. Participants have fun and learning happens in an easy and authentic way.

Value Proposition:

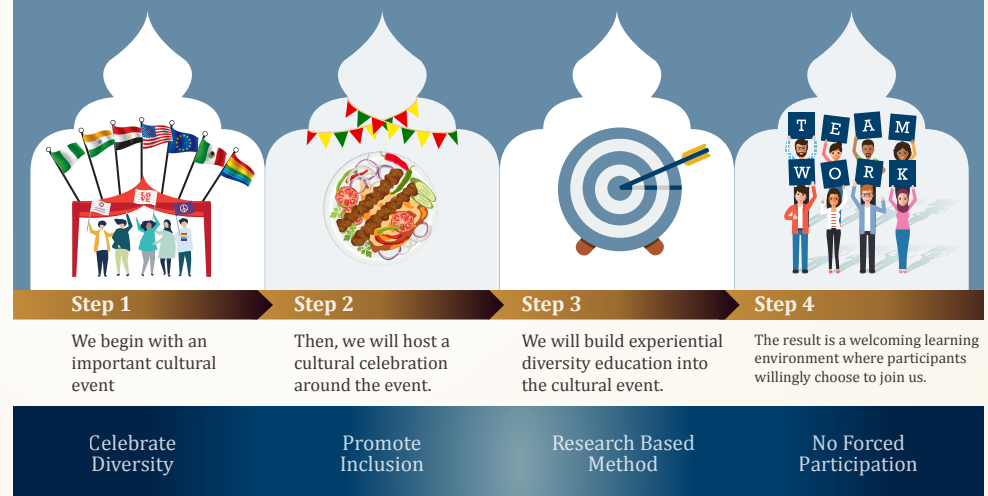

Experiential Learning: We avoid traditional lectures. Our method relies on a rich environment for exploration & experiential learning.

Diversity & Inclusion: We provide the link between organizational diversity & inclusion. Our hosted events create the culture of inclusion that you seek while providing ongoing diversity education.

Disarming: Diversity doesn't have to be an uncomfortable discussion. In a spirit of celebration and fun it is possible to come together to experience something new in an easy & friendly way.

Our Method: Experiential Diversity Education

Decrease Bias | Increase Cultural Awareness | Learn New Perspectives
