

Check VALVES

Check Valves

AquascapePRO™ Check Valves

A check valve assembly is needed to connect your pump to the pond plumbing. Aquascape's dual union check valves has a removable connection underneath the check valve which allows you to disconnect the pump and plumbing without draining the water in your BioFalls® Filter (not included in #29500 Plumbing Assembly). See descriptions and chart below to figure out which check valve assembly fits your project.

#29099 Check Valve Assembly 2" Pondless® Waterfall

Unit Weight: 4 lbs.

#29500 Plumbing Assembly Signature Series™ MicroSkim®

Unit Weight: 1.4 lbs.

#29501 Check Valve Assembly Signature Series™ Skimmer or MicroPondless™

Unit Weight: 2.3 lbs.

#29503 Check Valve Assembly Grande

Unit Weight: 2.3 lbs.

#29098 Check Valve Assembly 3"

Unit Weight: 4 lbs.

#29108 Check Valve Assembly 2" AquaSurge™ PRO

Unit Weight: 1.5 lbs.
