

# Tubby's Taste

## About The Founder

I come from a long line of Jamaican cake ladies so it's safe to say that baking is in my blood. Growing up in Miami, I was surrounded by unique fruits, foods, and flavors. I started making desserts as a hobby to explore baking with the flavors of my family's culture. It quickly turned into a passion then a business - and Tubby's Taste was born in 2014!

We've created Tubby's Taste to provide **convenient solutions to your craving for homemade goods**. Our cookies are preservative-free to be sold fully baked but frozen intended for the customer to thaw or heat in a fraction of the time in order to enjoy a homemade taste without doing any of the work!

Plus they are vegan, made with organic, soy-free ingredients, and each bold flavor is inspired by my Jamaican roots! I can't wait for you to taste them!

All the best,  
Danielle
