## Sunset Collection

The Sunset collection began as a vision to create a contemporary design that would fit in any modern environment. In addition to being beautiful, it would have to be sturdy, easy-care, and pass ASTM testing. With this in mind, we brought in our European design team.

Our plan for the Sunset group was to introduce a total solution for poolside areas, beginning with the chaise and low tables for lounging by the pool. The line would grow to include dining with tables and seating, and then transition to conversation and bar areas with our deep-seating, cocktail table and barstools.

Utilizing our innovative Air-Molded Technology with our proprietary technopolymer blend for the frames, we created smart, stylish & strong designs. We added sophisticated textilene fabric, and the results speak for themselves. Most slings can be easily replaced, and the chairs stack for simple storage. Of course, our seating meets the ASTM standards.

Sunset tables feature aluminum frames with state of the art HPL Compact tops for long-lasting durability. Sunset dining tables are also ADA compliant!
