

We're in love with these skincare treats.

BLÜR BEAUTY

Jamie Cleaver recently launched a new skincare range, Blür Beauty. The range includes face and body products made from recycled coffee grinds from lauded Truth Coffee. The coffee grinds, packed with natural antioxidants, are blended with high-quality essential oils to make exceptional products that see lasting results.

AFARI CRACKERS

These gorgeous crackers are part decoration, part festive gift. Inside the beautifully wrapped crackers, you'll find options of the Afari priming cleanser, day cream, overnight regenerating cream and brightening elixir.

A touch of elegance

The Cotton Company crafts each piece with love. And this season sees the welcome of their luxurious robes and new editions to their towel collections.

WITH AN UNDERSTANDING and appreciation for traditional artisan Hammam towels, The Cotton Company creates beautiful and versatile products that add a little something special to everyday living. They have recently released some brand-new products, and each is as lovely as the next.

Forming part of the new collection, the Halva handwoven robe is hand-loomed from a cotton and linen blend. Luxurious and soft, the robe has wide kimono-style sleeves, deep pockets and a long belt. It's the ideal piece for summer and can be worn as a lightweight cover-up at home or the beach.

The Ash towel adds a little luxury to every day. It's predominantly linen-coloured, with ash-coloured stripes. The towel is generously sized so that it can double as a cover-up at the pool or beach. Like all The Cotton Company products, it's ethically made from natural fibres.

The brand-new Dimanta Turkish towel in Lemon boasts a thicker, soft weave, along with the durability of Turkish cotton. A practical and stylish piece, it can be used as a towel, baby's blanket or throw on a bed or couch.
