

X 810

ballistic goggle

Compatible with all types of helmets thanks to its low profile shape and its **quick-release system**, the X810 offers an array of innovations. Compact, panoramic and modular, in waterproof or ventilated version, the X810 offers protection for the most extreme situations. In its ventilated version, the X810 goggle provides the best resistance to fogging with its **PLATINUM** coating.

PLATINUM

The new PLATINUM® coating guarantees even more safety, reliability and comfort. Washable (water and soap), this permanent coating applied on both sides of the lens makes it highly scratch resistant and durably delays the appearance of fogging.

Spare lenses on option:

X810 TAN VERSION
supplied with a soft tan molle case

X810 BLACK VERSION
supplied with a soft black molle case

Supplied with microfibre pouch around the strap and soft carry case (tan or black according to the version).
