

Saveometer™

a personal smart meter that helps you to control your electricity costs and is guaranteed* to **save you money**

Programmable for up to 4 different charging rates per day

Displays electricity costs, kilowatts used and CO2 emissions produced

Choice of currency and voltage – the Saveometer is a worldwide product

Suitable for 2 and 3 phase supply (additional sensors required)

Permanently backlit display

Up to 25 wireless displays can be linked to a single transmitter

At last the electricity meter has been moved from its dark and dusty home under the stairs or in a spider ridden cupboard, and brought into your home or office in an attractive wireless display that provides real time and historic information about electricity costs in a currency we all understand – **money!**

The Saveometer Personal Smart Meter (PSM) enables you to clearly see the large savings that can be made by simple changes in the way in which you use electricity. The latest wireless technology and the Saveometer PSM provides up to the minute and historic information about your electricity use.

The more you become aware of when, where and why you are using electricity the easier it is to identify and change wasteful habits – whether in a home, business, or any premises that use electricity.

The Saveometer PSM's large easy to read portable display monitors electricity costs and shows them simply, in real time.

- Wireless portable display
- Easy to install
- Large back lit screen
- Cost of electricity displayed per hour, past week, past month, past quarter and previous year or any other period you choose
- 30 day bar chart clearly showing electricity use and trends
- Brightly coloured LEDs indicating 5 different cost levels of electricity use
- Radio controlled clock and calendar
- Electronic barometer with temperature and humidity
- Rechargeable batteries and dedicated charging base

Saveometer™

Full money back guarantee. If after 12 months you haven't saved at least the recommended selling price of your Saveometer, Eco1 Limited will gladly make a full refund*
