Company Introduction

Daesoo Hi-Tech Co., Ltd. is professional company, specialized in environmental new material, nano technology.

We have developed and produced functional coating solutions with the aim of improving pleasant and clean indoor and outdoor environment.

We will always strive to grow as a reliable company under our corporate spirit of 'Respecting people and the environment'.

- 1) Research and development of environmental new material nano technology
- 2) Development of antibacterial deodorant for daily life
- 3) Development of super hydrophilic coating solution for daily life
- 4) Development of industrial nanotechnology catalyst
- 5) Coating solution to prevent adsorption of pollutant and discoloration

■ Product Details

1.COATINGS, 2.stella : hydrophilic coating solution

Living › Living Households › Others

Super hydrophilic coating solution to prevent adsorption of various pollutants on the surface of building exterior materials and metals with anti-pollution and anti-discoloration functions.

1. Product Features

- It prevents adsorption of contaminants by forming super hydrophilic coating layer on the surface of equipment. Thus, it removes contaminants by simply washing with rain or water. (Maintaining always clean surface of equipment)

2. Applicable usage

- To prevent pollutants (super hydrophilic property, pollution resistance, discoloration prevention, chemical resistance)

- Various metals and construction exterior materials that are easily exposed to pollutants.

3. Product Features

- It prevents and easily remove pollutants due to pollution resistance.

- It maintains long-term sustainability with one time of coating (more than 6 months).

- Surface abnormality due to coating: No abnormality

- Easy and simple spray typed coating

- Drying at room temperature after coating: Within 5 minutes after coating.

FOB Price	10 USD
M.O.Q.	1,000 PCS
Target Customer	30s and 40s
Target Countries	USA, Indonesia, China.
Target Buyer	Consumer goods distributor, Automotive Vender, Sink manufacturer.
