Childbirth/Babycare Products(Diapers, Car Seats, etc)

The way of thinking to build sympathy between baby and mother.

The life cycle of a baby bottle will normally only last from 3 to 4 months and be thrown away. Whereas OU baby bottle is a sustainable design product in order to broaden its another utilization for mother.

OU baby bottle with high quality environment materials can be used as a baby food container or a water bottle for going out during breast-feeding, but after the breast-feeding it can be also used as a luxurious kitchenware.
