## Company Introduction

Since established the company at the end of the last year, we are doing pretty promising start with owning our technologies that Plasma and 1060nm LASER. We are not looking for the just big company. The important thing is who you are. I believe that we are able to meet reliable business partner via this event.

Nowadays, the hardware&software systems are getting easily spread out and sharing with companies which desire them flat form. Under this circumstance, Key factors are owning technology and independent sales team what are able to keep business on a long-term basis.

As we are start-up company now, we would like to focus on those key factors(R&D and direct sales) than others.

We would like to make a successful business with an official distributor who desires sell our products.

The relevant certificates for exporting, it would be approved sooner or later. We always welcome all discussions of the business meeting.

Thanks.

## ■ Product Details

### PlaLucy

Beauty&Health › Beauty › Skincare

A home-care unit which named PlaLucy using plasma as well as galvanic technologies for maximizing the treatment effect.

The specific feature it has an ozone ventilated system. This system consists of the intake port, ozone filter, and ventilation holes.

Under the plasma operation, the ozone naturally occurred. It induces sterilization effect on the skin surface. On the other hands, it is not good for a respiratory system of the body. Therefore, our well-designed ventilation system it offers that be a safe treatment.

Furthermore, the device offers vibration mode and type-C USB charger.

You can easily control the all functions by only one button.
