Company Introduction

Genoheal is a bio-venture company that works with domestic and overseas leading gene analysts to provide a personalized life solution based on the most accurate genetic measurement algorithm.

We provide solutions based on genetic information, and sell derivatives based on genetic information, and we also sell gene analysis products such as cosmetics.

Genoheal Laboratories has own genetic information accumulation technologies and key research technologies to make it a leading research center for the gene industry, and Genoheal is always trying to make the life of its people healthier, more comfortable and easier.
