Company Introduction

June.F is a baby product manufacturer, who is developing and providing innovative and practical baby products to parents around the world.

Especially, June.F is the company which develops and manufactures KOKONANNY product which is very popular as one of 'must-have' items among new moms in Korea. KOKONANNY is a functional and ergonomic infant bed which helps babies to keep a pleasant and sound sleep without mom's hug, while moms can enjoy a sweet rest separated from her baby.

June.F runs its own laboratory, MAMA's R&D Center. We let 'Meticulous moms' participate from product planning. Safety and well-being of babies always matter most to us when we make products, as it is being used for our own baby.

June.F always puts every effort to represent mom's heart. Just like every parent does, June.F offers only the best for the precious baby.
