Company Introduction

Korea Taconic was established February 1996 through a direct investment of Taconic, a leading manufacturer in the PTFE product industry over the past 50 years.

We produce PTFE coated glass fabric for thermal resistance, non-stick, thermal resistant tape, PTFE belts architectural fabric, and PTFE laminates for radio communication equipment used in overseas markets including Japan, Taiwan, China, India, other Asian countries and Australia.

Silkway was finally commercialized through the 3-year R&D based on an accumulation of knowhow during the past 55 years. Such perfect product is manufactured through the 7-step process.

Distribution network Performance

Department Store, Online, B2B and etc

Keywords

■ Product Details

Laminated Film Pan, World's 1st

Living › Living Households › Home/Garden/Tool

75 micron film, 2 to 3 times thicker than coating shows powerful non-stick performance beyond existing spray coating, and lasts long without being taken off like coating. Since there is no pinhole on the film surface, it does not contain any water, oil, sauce, etc., and do solve any worry about food leftovers, smell permeated, remained detergent, etc.

Since it is possible to cook only with small oil, you can enjoy the natural taste of ingredients. Without the cumbersome preheat and management, even cooking novices can use it with no difficulties.
