Company Introduction

NY Company is the facial mask pack specialized company established in 2017 with the professional researchers who have 20 years of expertise in cosmetic R&D and design development.

Our first brand, Pack Yangee was launched in January, 2018 after 20 months of preparation period.

Pack Yangee is the new concept facial mask pack that recovers damaged skin from the sun and tightens and soothes swollen face quickly after having late-night meal.

Especially, our products are designed to be made the sticky and highly enriched thin ice essence only for 2 minutes of melting at room temperature from the refrigerator.

Pack Yangee's perfect sticky thin ice essence is made based on the advanced 50g of yam-fiber mask sheet which is irregular and polygonal shape and the best concentration ratio of raw materials.

Moreover, since dermatologists introduced the ice massage is good for cooling down, anti-aging, and whitening on beauty shows, the effectiveness of ice massage was spread through online media. This is why Pack Yangee thin ice mask pack has become a hot issue.

We are consistently planning to develop unique products targeting 20s and 30s that have special concepts.
