

BMLINE

Vega White Cream

Vega white cream contains msm(organic sulfur), natural vegetable raw material, and natural vegetable oil to nourish skin to make skin elastic and bright. It helps reduce wrinkles and whitening. The main ingredients are argan tricone oil, cedar powder extract, and uniterol, chrysanthemum extract aloe vera juice hooba oil.

MSM Peeling gel

Peeling gel used a traditional scrubbing-like, soft, hard-mold formulation without the use of stiff, hard-molded formulations. The traditional peeling gel was a way of peeling off the surface of the skin, so its skin got red and agitated, but the non-emline filigells had plant-based extracts and bottle-pooling properties.

Nail Shiner

Your nails are damaged or weak, so you can't change them often, but it's perfect for those who want them to use. It can be polished by peeling the dead skin off the nails. The rear of the special glass nail shiner comes with a stylish design and a convenient case to carry.

COMPANY INTRODUCTION

average point
3.90

Rating Region

We, the new startup company, created in 2017, are dedicated to the beauty of our company.

We think beauty is something that every country seeks, so we build products with beauty as a concept. Therefore, although small amount is not necessarily the only product, it is the company that produces the products that consumers seek. Thank you.
