INOFACE Modeling Cup Pack

[Black Food, Chlorella, Propolis, Acerola, Yoghurt, Peppermint, Collagen, Vitamin, Shining, Tea Tree, Charcoal, Red Ginseng]

Modeling Pack is often called rubber pack because the pack becomes soft as it solidifies. It is a usual practice at skin clinics to apply modelling pack after spreading serum at the last step of skin care, because modeling pack forms a vacuum layer inside the skin to provide moisture and nourishment deep inside without loss of nutrients contained in serum and contract pores with cooling effect.
