## Corsage

Corsage is a decoration that is used to attach pins to hair, breasts and shoulders that are derived from France. Originally used for weddings or parties, the area is gradually expanding into fashion items in recent days. In the early days, it was used as a disposable product with real flowers, but because our core value is 'unchanged happiness,' we were able to create beautiful floral decorations with fibers and create an anti-British design. Although the basic method of flower making is the same, according to the shape of pin, it is divided into hair cossage, shoulder corsage, breast cossage, and so on, and about 500 kinds of flowers developed and made are available. It is based on cossage made of fiber, but in special cases, wedding, the real flowers are processed with a preserver to emphasize leaf vitality. Men's boutonniere have recently increased in use in Europe, so they also make boutonniere decorations with longpin. Customize according to your customers' needs, and develop designs that characterize your business's logos and pictograms.
