#### COMPANY INTRODUCTION

average point  
**3.54**

Rating Region

Jerrybag offers you to enjoy meaningful and stylish life. Perfect fit for any occasions, our design is inspired from non-profitable products called One+ Bag made in Uganda; Reflectors keep you safe in the dark, no subsidiary materials allow you to use knot adjust system, and simple look, matching with Jerrybag's very first One+ bag, gives you comfort. Jerrybag will continue to design a product that solves social problems while introducing valuable and meaningful products to our global consumers.

Started in 2014 in Uganda, Africa, Jerrybag saw children carrying heavy water canister, called Jerrycan, in unconstructed roads without safety, and so designed One+ bag to help those children's burden. For every bag you purchase, 1 One+ bag will be made by local women in Jerrybag Uganda studio and delivered to children in need through international NGO partners.
