3.50

Rating Region

<Painttters> is a 'Wearable Art Studio' that values attractive colors. By adding the letter 't' to the word 'Painters', we gave the meaning of our distinctive and unique identity to the brand.

In 2017, Painttters was first launched, making collaboration with artists of SYS PLANET (since 2010). And based on the philosophy of "wearing art in daily life", we make Painttters' very own steady seller by connecting beautiful artworks and great materials together. We will create timeless products with quality and designs that go beyond the trend.
