COMPANY INTRODUCTION

average point

3.94

Our mission is to improve efficacy of humans by providing accessories and tools that harmonize with natural human behavior.

AAUXX develops and supplies innovative tools and accessories to the World. As the name implies, AAUXX extends the definition of the word 'auxiliary'. Instead of simply being redundancies, AAUXX redefines the word to be something that improves efficacy of what it supports, and that is our DNA.

The name AAUXX not only represents the redefined meaning of 'auxiliary', but it also means that we profoundly ponder the A to X of accessories and tools.
