GGO DEUNG O

The imagination of GGO DEUNG O clothes a sense on everyday life.

GGO-DEUNG-O, who enjoys the journey on its two legs full of curiosity. He also often suffers from severe on-land motion sickness, but quickly recovers from the sickness right after swimming in Busan offshore. Frightened as he is, he travels carefully here and there because his simplicity and curiosity far more outreaches his fear.

His journey is not full of joys. Sometimes he wants to cry when he is cornered by a series of crises. GGO-DEUNG-O can escape from every crisis with his unique goofiness. Even today he swims in the city while standing on his feet on the ground.
