8. Stand

Features

Thank you for purchasing the Marathon Bluetooth Wall Clock. This product is designed to work with iPad, iPhone, iPod, other iOS devices and Android 4.3 or above devices.

- Supports iOS version 7.1 or above
- Supports Android version 4.3 or above
- Up to 5 alarms with snooze function
- Take full control of the Bluetooth Wall Clock with app
- Selectable alarm tone pattern and volume
- Temperature and Humidity reading with history chart that can be read on App without alarm clock connection
- Count down timer
- Monitor the battery status of the Bluetooth Wall Clock and have battery warning if it is at low level
- Can stop alarm via App
- Wall mounting or desk stand
- Operating temperature is 0°C to 40°C (23°F ~ 104°F)

Before you start using it:

- Please make sure to read the instruction manual carefully.
- Following and respecting the instructions in your manual will prevent damage to your instrument and avoid causing your warranty to become void.
- We shall not be liable for any damage occurring as a result of not following these instructions. Likewise, we take no responsibility for any incorrect readings and for any consequences which may result from them
- Please take particular note of the safety advice!
- Please keep this instruction manual for future reference

Getting Started

1. Install battery
 - 1.1 Open the battery compartment.
 - 1.2 Insert 2 x C size batteries in polarity (+) and (-) as indicated.
 - 1.3 Close the battery compartment.

2. Install Clock System App on your device.
 - 2.1 Access App Store or Google play search for Clock System. 
 - 2.2 Select and install Clock System App on your mobile device.

Please Note:

User manual is based on iOS version and may differ with Android version which will be specified as supplementary information at bottom of relative page.

Pairing the Bluetooth Wall Clock

3. Pair the Bluetooth Wall Clock with Clock System App.
 - 3.1 Before running the Clock System App, make sure your device has Bluetooth enabled.
 - 3.2 After you tap the app icon  , the 'Nearby Devices' screen appears. You need to pair the Bluetooth Wall Clock device before you enter the main app screen.

iOS Version

Android Version

Pairing the Bluetooth Wall Clock

3.3 Tap “ Pair New Device” to search for nearby devices.

3.4 Press and hold the [PAIR] button on the Bluetooth Wall Clock device for 5 seconds. You will see that the  icon will start to blink on the clock.

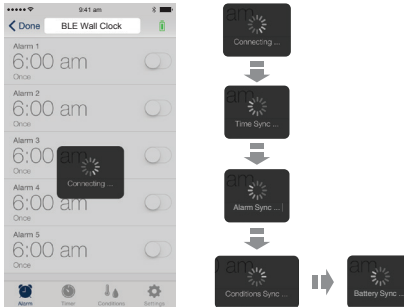

iOS Version

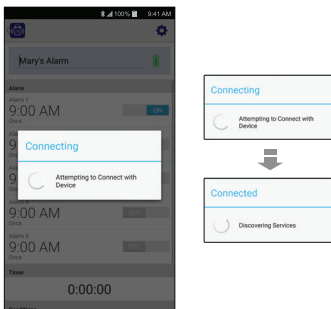

Android Version

3.5 The new Marathon Bluetooth Wall Clock will be displayed on the App and is ready for pairing. Tap the Marathon “Bluetooth Wall Clock” to start the pairing and connection process. Once the Bluetooth Wall Clock + is paired, it will start time and data synchronization.

Pairing the Bluetooth Wall Clock

iOS Version

Android Version

3.6 After the connection is made, the following information will be synchronized:

- i) Current time and date
- ii) Alarms & timer setting
- iii) Unit battery level
- iv) Temperature and Humidity history

Pairing the Bluetooth Wall Clock

No Bluetooth connection

Bluetooth establishing connection

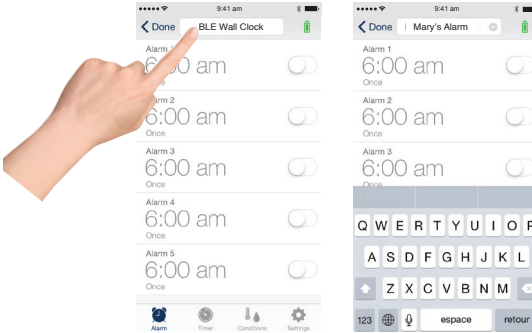

Bluetooth connected successfully

14.1 The scrolling display will be in following order:

Scroll Function

“Temperature and humidity with clock mode”

“Clock with alarm time mode”
(show if any alarm enabled)

TIMER mode
(only if the timer is running)

14.2 In auto-scrolling mode, each mode will stay 3 seconds and then switch to next display.

Care of your Bluetooth Wall Clock

- The unit should not be exposed to dripping or splashing of liquid.
- Do not expose unit and/or batteries to liquid, sand or excessive heat.
- No objects filled with liquids, such as vases, shall be placed on the unit.
- Do not cover the unit. Allow adequate space with a small gap between the buzzer holes and surrounding surfaces.
- To clean the set, use a soft dry cloth. Do not use any cleaning agents containing alcohol, ammonia, benzene or abrasives as these may harm the housing.

Manufacturer reserves the right to update the contents of this manual and App.

Disposal of Your Old Product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC. Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.

Disposal of Flat Batteries / Accumulators

You, as the end user, are legally obliged (Battery Ordinance) to return all flat batteries and rechargeable batteries.

Disposal in the household waste is prohibited. "European Directive 2006/66/EC" Batteries, including rechargeable batteries, which contain hazardous substances are marked by symbols which indicate the prohibition of disposal in the household waste. The designations for the heavy metals concerned are as follows:

Cd = cadmium, **Hg** = mercury, **Pd** = lead. You can return flat batteries / rechargeable batteries free of charge to the collection points in your community or anywhere where batteries / rechargeable batteries are sold. You thus fulfill your statutory obligations and help protect the environment.

Caution

Replace only with the same or equivalent type of battery, please refer to the engraved battery marks inside the battery compartment for the correct battery polarity (+) and (-). Danger of explosion is possible if battery is incorrectly replaced.

This product complies with the requirement of the 1999/5/EC directive.

Use this unit and mobile phone only in environments with ambient temperatures between 0°C and 40°C.

And the maximum operating temperature of the unit is 40°C

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
