Atomic Self-Setting Wall Clocks

This family photo was taken in 1892. Hersh Wein is seated and on his lap is Morris Wein at approximately one year old.

In 1939, Morris Wein founded Marathon Watch, supplying fine precision timepieces throughout North America. Since 1941, Marathon has been manufacturing timing instruments for the Allied Forces, and today the fourth generation of the family continues the tradition with a wide range of instruments measuring time, temperature and distance. Marathon watches combine military durability with Swiss engineering and craftsmanship to ensure the highest level of quality and precision.

Marathon products are manufactured with the utmost care and go through various quality control measures. This attention to quality is supported by a commitment to excellent customer support to ensure the best possible product experience.

Marathon ~ Best in the Long Run.

## Jumbo Atomic Clock with Auto Backlight

Marathon's Jumbo Atomic Wall Clock with Auto Backlight features a jumbo display for easy viewing and a full calendar display, convenient for planning and organization. This clock has been designed with absolute simplicity in mind, featuring self-setting and self-adjusting functions with easy-to-set slide-switches. The large, easy-to-read display has an ambient light sensor, which triggers a bright yet pleasant backlight at night, while its indoor temperature display, allows you to monitor and regulate your environment for maximum productivity.

(W x D x H): 15.2 x 1.3 x 10.6 in (38.6 x 3.3 x 27 cm)

## Digital Wall Clock with Auto Backlight

If you are looking for a durable, easy-to-read clock, Marathon's Digital Wall Clock with Auto Backlight is the perfect clock. It is self-setting and self-adjusting, so it automatically adjusts your time preferences for you. With its indoor temperature and humidity feature and auto backlight display that triggers a soft glow in low-light settings, this clock was engineered to maximize comfort.
