Special Weekly Setting Instructions for

use of your Tide Timer on the
PACIFIC COAST OF THE USA & CANADA

Tide Timers do not need to be set weekly for use on the EastCoast, so please discard this entire sheet. It applies only for those on the Pacific.

Due to the vastness of the Pacific Ocean, the regularity of the tides is less predictable. Schelling Corporation has formulated these custom copyrighted weekly setting tables for use with your Tide Timer in order to attain the most accurate readings possible from a Tide Clock. OF COURSE FOR ANY POTENTIALLY DANGEROUS SITUATION, YOU SHOULD RELY ONLY ON OFFICIALLY PUBLISHED TIDE TABLES AND YOUR OBSERVATIONS. TIDE CLOCKS ARE NOT SUITABLE FOR NAVIGATION!

We have supplied starting times for most of the major reference stations published by the US Department of Commerce for the Pacific Coast. If the reference station in your area is not included, you only need to determine your relationship to a referenced station once, and your tides will always be the same variance from that station's time.

Instructions for setting your Tide Timer on the Pacific Coast –

To receive the maximum benefit from your Tide Timer you should use the enclosed Pacific setting charts each Saturday to adjust your Tide Timer. Each Saturday, reference the time of high or low tide indicated in the enclosed chart for your area. Reset your Tide Timer as indicated. Then do not reset or adjust your Tide Timer again during the week. You may notice that our setting times will be different from the published tide tables, and may vary an hour or more at times. Our special computer programs have developed special settings to provide you with the most balanced readings throughout the week. Thousands of users of our Tide Timers have found this variance fully acceptable. Remember, along the Pacific Coast, setting our or any Tide Clock by the official published tables will not give satisfactory results. If you would like to receive the yearly annual updates available each December, or if you have any questions, please call or email us.
