Satin Tyre Dressing

A water-based tyre protectant dressing that penetrates and conditions rubber to restore weathered and faded tyre sidewalls with a clean, natural, satin finish. Contains a blend of reactive polymers and moisturisers to provide durable, hydrophobic, water repelling protection.

Features + Benefits:

Natural satin finish

Water-based protectant gel

Penetrates and conditions

Durable protection

Contains a blend of protective reactive polymers

Water repelling, hydrophobic protection

Easy to use and splatter free

Directions For Use:

03
04
05

Ensure surface is clean and dry. Always apply to clean, dry tyres.

Apply a few drops to a detailing applicator or tyre sponge and rub onto the outer wall of the tyre.

Leave to cure, for a satin, semi-gloss finish.

Weathered and faded tyres may require two or more coats. Initial coat will absorb and nourish tyre, with subsequent coats providing a subtle, natural satin finish.

Apply further coats to reach desired finish, and enhanced protection.

STORAGE: Store the bottle in an upright position in a cool dark place and ensure lid is replaced after use.

Unit 1, Sheldon Nurseries,
Stanboro Lane,
Elmstone Hardwick,
Cheltenham GL51 9TN

All this. By hand.
