PRODUCT DETAILS

E26 60W Bulb

110V - 130V 50Hz

Marble Base, Stainless Steel

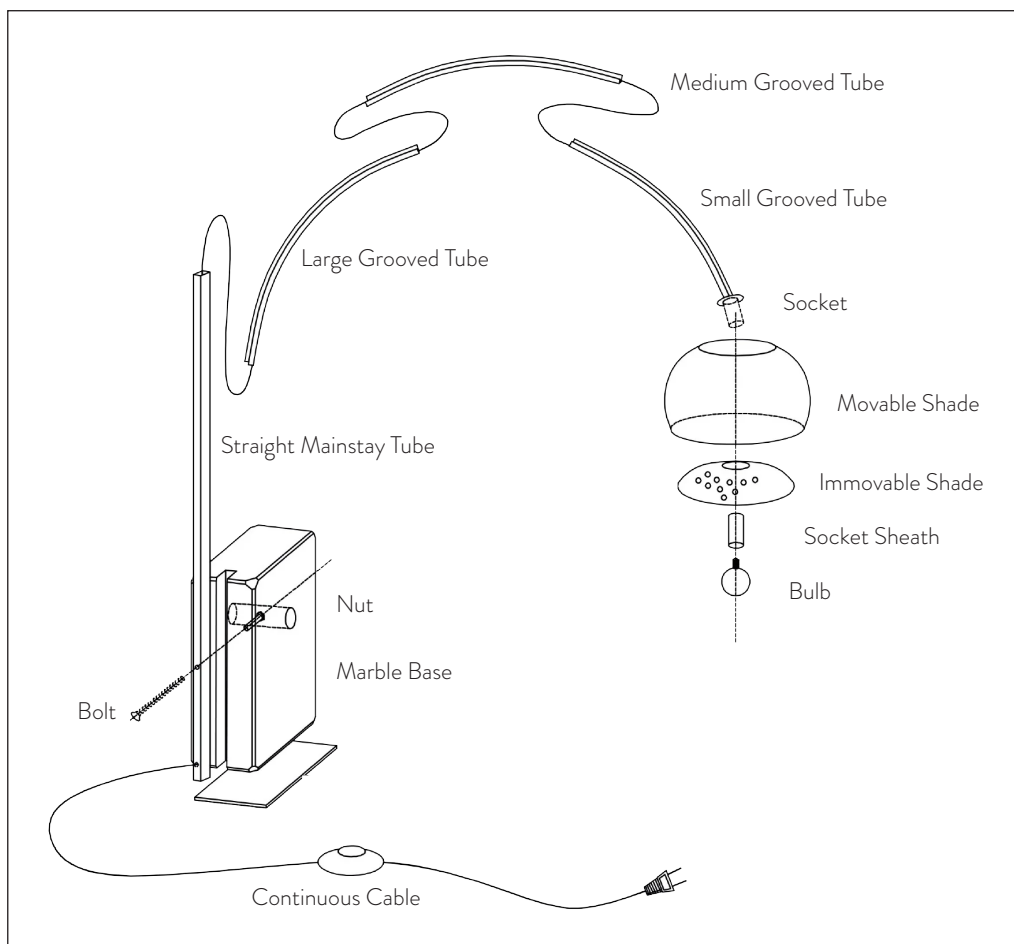

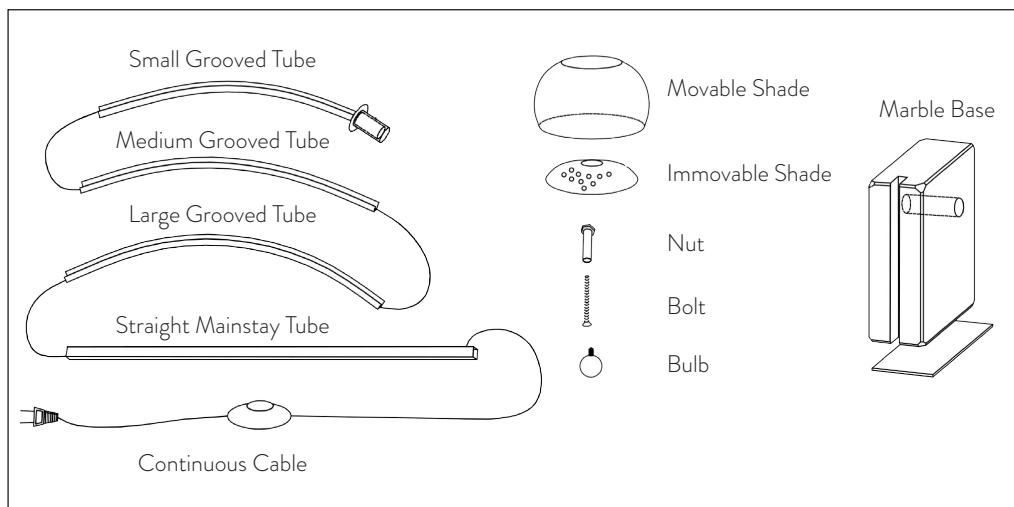

CARE INSTRUCTIONS

This light is for indoor use only.

Dust with a dry microfiber cloth to clean. DO NOT use water to clean.

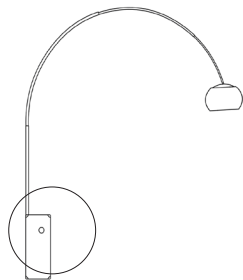

Avoid Turning the switch to 'on' until all fixings are finished

Always disconnect from power source before changing the bulb, and ensure that the bulb has cooled before handling.

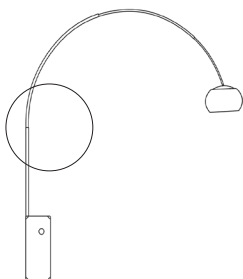

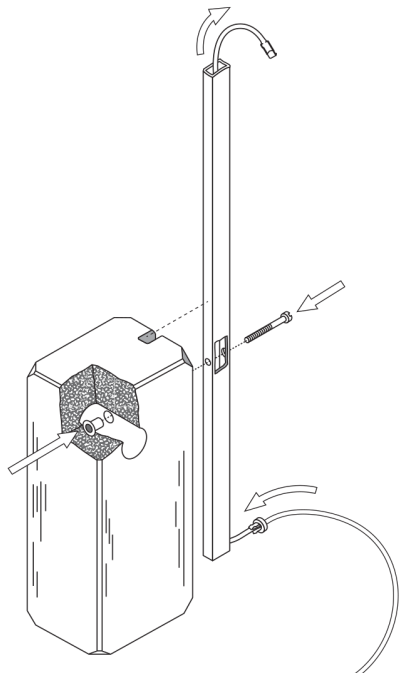

PRIOR TO ASSEMBLY

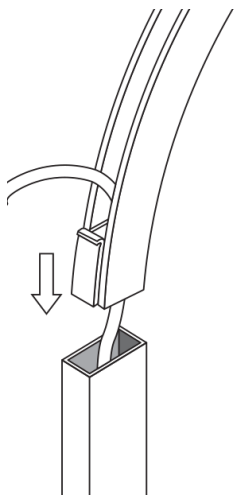

1. Remove the Bolt stored in the Marble Base.
2. Remove the black plastic stopper from the top of the Straight Mainstay Tube.
3. Ensure the Marble base is placed on an even surface.

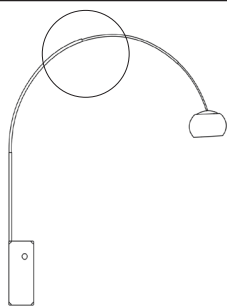

4. Turn the Mainstay tube so the cable is facing outwards
5. Insert the bolt into the midway hole
6. Insert the mainstay tube into the slot on the marble base and ensure the bolt slides into the channel.
7. Secure the nut with the spanner whilst tightening the bolt. Ensure the cable is not caught under the bolt by gently pulling upwards.

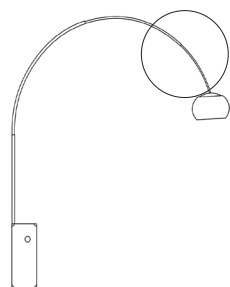

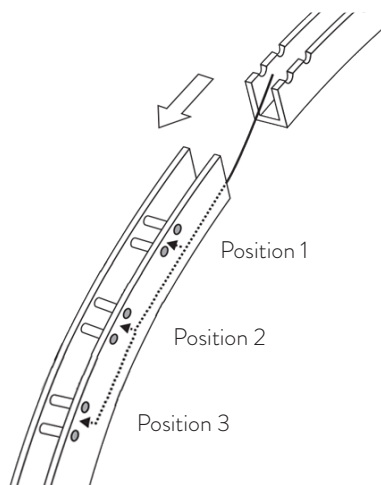

8. Insert the Large Grooved Tube into the straight mainstay tube with the clip facing away from the curve
9. Ensure the cable is not caught by gently pulling upwards

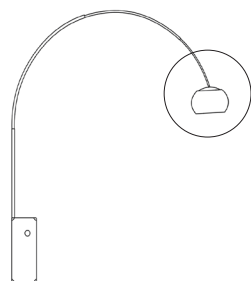

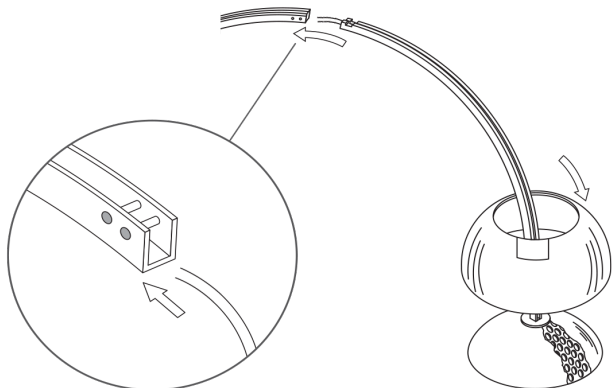

10. Insert the medium grooved tube into the large grooved tube. Fix into one of three positions to set the height of the arch.

11. Pull the cable gently upwards and set inside the grooved tubes

12. Hook the small grooved tube into the medium grooved tube.

13. Set the cable inside the groove.

14. Insert the immovable shade into the movable shade.

Fix in place by tightening the socket sheath.

15. Insert bulb and connect to power source.
