

# XVL 1

CLASSIC

Single flavour floor standing machine to produce soft ice cream and frozen yogurt.  
**A must have**

Maximum versatility and high production capacity: pump or gravity fed, the machine suitable for all customers

### Large production capacity

Continuous production is guaranteed even during peak hours

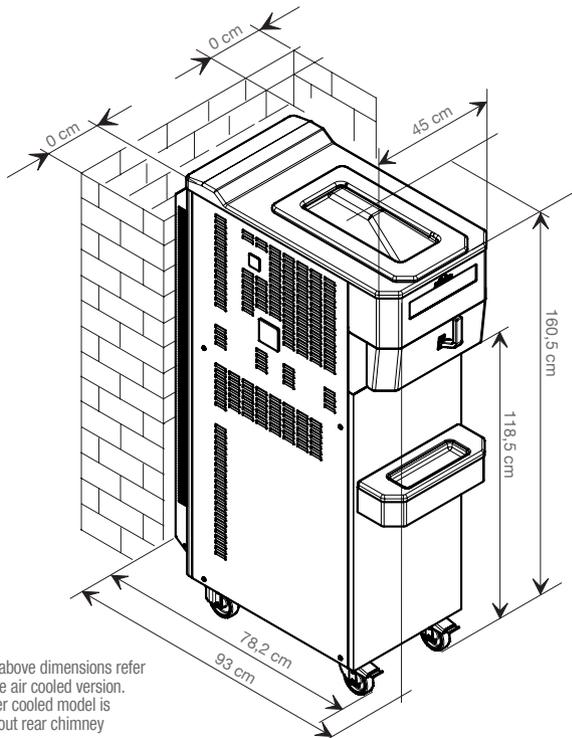

### Production flexibility and versatility

Satisfy all your customers' needs by offering a wide range of products: soft serve ice cream, frozen yogurt, fruit sorbets and single portions

### Overrun and consistency control

Different consistency control settings for various mix types and easy adjustable overrun

The above dimensions refer to the air cooled version. Water cooled model is without rear chimney

## Optional configurations

### Self-pasteurization

With our self-pasteurization system the machine can be cleaned and disassembled only 9 times per year

### Teorema Remote Control

It gives very important info about the machine, it facilitates the service system and helps the cleaning schedule

### Single portions kit

Optional nozzles to fill cups and tartlets and to produce ice cream single portions

### Mixer

Optional mixer with disposable spoons to swirl toppings into the ice cream

### Dry Filling System

Possibility of preparing the mix directly in the hopper by adding water and dry mix

	Flavours	Mix Delivery System	Hourly production (75gr portions)	Tank Capacity	Cylinder Capacity	Nominal Power	Fuse Size	Power Supply	Cooling System	Refrigerant	Net Weight
<b>XVL 1 CLASSIC</b>				lt	lt	kW	A				kg
P	1	Pump	465*	13	1,75	2,5	10	400/50/3**	Air/Water	R404	230
G		Gravity	440*			2,4					225

\* production capacity depends on the mix used and the room temperature

\*\* other voltages and cycles available upon request

## Features

Stainless steel pressurized gear pump (P model)

Independent pump transmission (P model)

Gravity fed system (G model)

Tank agitator

POM beater

Self closing device

Adjustable ice cream flow

Direct expansion cooling cylinder

Defrost system

## Benefits

With POM gears, the pump ensures the best ice cream texture, quality and high overrun, adjustable from 40% to 80%

Helps to extend the life-span of the pump and gears and allows for flexibility and maximum performance

Control valves naturally add air to the mix producing a firm and dry ice cream having an overrun up to 40%

Prevents product stratification and helps to reduce foam by maintaining a fluid consistency

One piece POM beater, easy to clean, for a firm and dry product. Ideal for frozen yogurt

The dispenser closes automatically stopping the flow of ice cream, eliminating any waste and preventing mess

Adjustable product flow to meet your specific dispensing speed and volume requirements

Optimizes refrigeration efficiency for fast freeze downtime, less waste of product ensuring higher quality and energy saving

Possibility to heat the cylinder to simplify the cleaning procedure
