

# LSX Concepts - LSA / ZL1 Supercharger Lid Bolt Kit

## Part Number # LSAM6KIT

[www.lsxconcepts.com](http://www.lsxconcepts.com)

### Parts List

#### Qty Desc.

5	M6x16mm (Fuel Rail)
17	M6x25mm (LSA Lid)
2	M6x25mm (Inter-Cooler Face Plate)
2	M6x30mm (Map Sensors)

- Remove the seventeen (17) bolts from the supercharger cover. Refer to the bolt locations chart. Carefully remove the bolts, leaving the plastic Isolators in the bolt holes. The factory bolt Isolators must be re-used.
- Using hex drive socket torque each bolt down on the first pass to 44 in-lbs (5 Nm) then on a final pass of 89 in-lbs (10 Nm). Make certain to use the order shown below.
- Torque all other bolts down to 89 in-lbs (10 Nm). (Map Sensors, Intercooler Face Plate, Fuel Rail)
