DIMMABLE

120-277 VOLT

3500K **4000K** **5000K**

PRODUCT DESCRIPTION:

The Flat Panel Retrofit Kit is the easy and cost-effective solution to upgrade fluorescent troffers to LED. The kit utilizes the existing troffer housing, thereby reducing labor time and expense since installation can be performed from below the ceiling. An existing troffer can be retrofitted in just minutes!

The kit's edge lit LED light source delivers uniform illumination with minimal glare, and creates a clean aesthetic that is perfect for offices, retail, health care, educational, hospitality and other commercial facilities.

FEATURES:

• Quick Installation of Flat Panel Retrofit Kit in existing luminaire without the need to break the ceiling plenum.
• Edge-Lit LED light source has a very thin profile.
• Available in standard CCT's (3500K, 4000K, 5000K)
• Design prevents any gaps from the retrofit fit in the existing troffer

CONSTRUCTION:

• EdgeLit panel featured aluminum frame and steel back for rigid support
• Standard Dimension for 1x4, 2x2 & 2x4 Retrofits
• Fits most existing Troffers

CONTROL:

Compatible with standard 0-10v dimming controls

FORM AND FIT:

MaxLite recommends that a product sample is tested before projects begin to check fit of the retrofit kit. The retrofit kit is designed to fit into most preexisting troffers (lensed and parabolic).
WARRANTY:

10-year standard warranty with labor allowance*
(further details available at www.maxlite.com/warranties)
*Warranty Limitations: Product must be rated for the application per the Product Data Sheet (PDS); operated < 16 hrs; in ambient of -4° to 104°F

*Up to $25/unit; labor allowances of up to $500/unit available for purchase – contact MaxLite representative for details.
