

THE PURE COMPANY

PORTABLE
AIR PURIFIER
QUICKSTART GUIDE

Hello there!

Meet your new Pure Company
Portable Air Purifier.

Please keep this booklet in a safe spot
for future reference.

Getting started

Flip over this card to read our easy-to-follow instructions for setting up your Pure Company Portable Air Purifier. Or, if you prefer to watch how it's done, you can find our Portable Air Purifier assembly video—along with our other product videos—at thepurecompany.com/support.

The Portable Air Purifier doesn't require replacement filters. To order replacement aromatherapy pads, shop our full assortment of 100% pure essential oils and our custom collection of decorative wraps, please visit us at thepurecompany.com/support.

WARNING! For important safety, operation and warranty information and instructions, please see the full owner's manual located at thepurecompany.com/support.

What's in this box

1. Portable Air Purifier
2. Aromatherapy Pad
3. Drawstring Carrying Bag

Setting up & operating your Portable Air Purifier

STEP ONE

Choose a dry, stable, level surface to place your Portable Air Purifier.

STEP TWO

Plug the power adapter into the air purifier, and then plug the other end into an electrical outlet. (If you're adding essential oils or replacing the aromatherapy pad, please follow those instructions before plugging in your air purifier.)

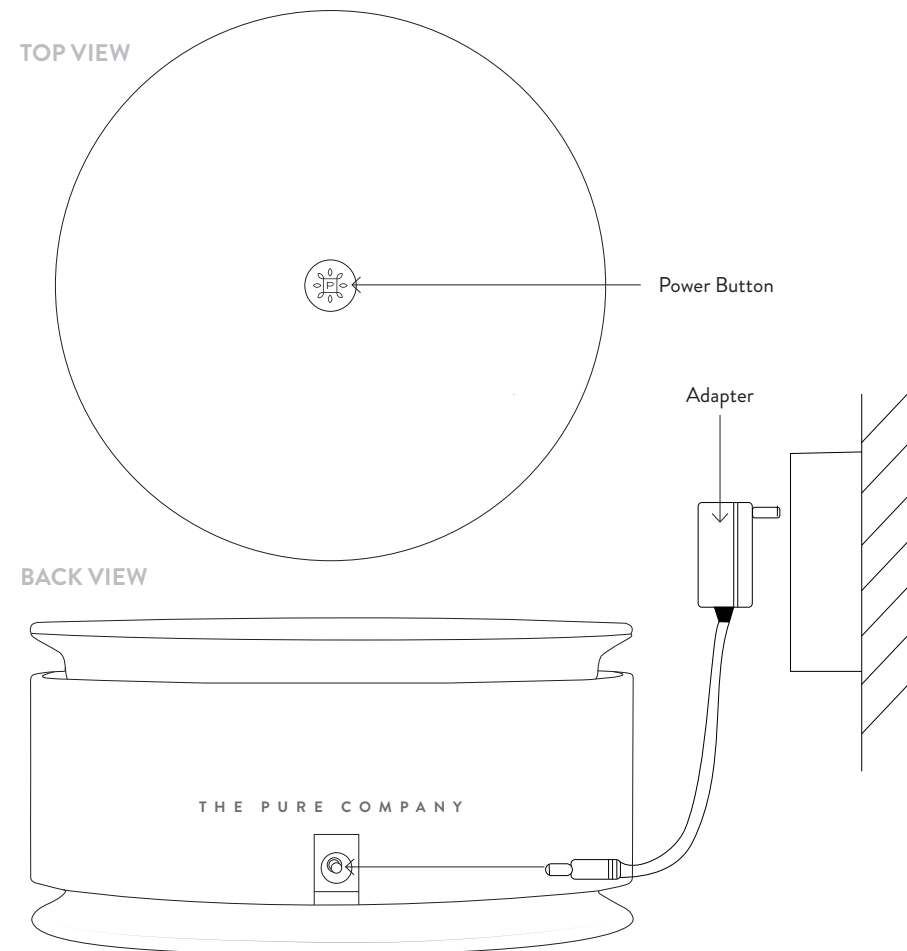

STEP THREE

Press the power button on top of the air purifier to turn it on and off.

Important

To clean your Pure Company Portable Air Purifier, make sure the air purifier is unplugged, then gently wipe the outside with a soft, damp cloth.

The owner's manual for your Pure Company Portable Air Purifier (including additional care and cleaning instructions), and its warranty information, are available online at thepurecompany.com/support.

Optional aromatherapy feature

Adding essential oils / replacing the aromatherapy pad

STEP ONE

Unplug the air purifier. Twist the body of the air purifier counter-clockwise to release it from the base and access the aromatherapy tray.

STEP TWO

To swap out an existing aromatherapy pad with a new one before adding essential oil, remove the used aromatherapy pad that is secured under the plastic clips on the bottom of the tray. Place a new pad in the bottom of the tray and secure it under the plastic clips.

STEP THREE

Add 3-5 drops of your favorite 100% pure essential oil to the clean aromatherapy pad.

STEP FOUR

To reattach the aromatherapy tray, place the body on top of the tray, lining up the notches on the aromatherapy tray just to the left of the grooves on the bottom of the body. Turn clockwise until the notches snap into place.

STEP FIVE

Once the aromatherapy tray is secure, plug the adapter into the back of the air purifier and plug the power cord into an outlet.

STEP SIX

Push the power button to turn on the air purifier and release the essential oil scent.
