The Best Face Sunscreens for Every Type of Skin, According to Amazon Shoppers

Summer is just around the corner, which means you're probably **stocking up on sunscreen** for all the sunny weather ahead. While that's definitely a good idea, you should actually be wearing sunscreen daily—yes, even on those gloomy overcast days. If you're tempted to use just *any* sunscreen on your face, you might want to reconsider. Body sunscreen can often be super thick, and slathering it on your face could clog your pores or leave a white cast. Fortunately, most sunscreen brands make face sunscreens that are **non-comedogenic**, lightweight, and sheer.

To that end, we rounded up some of **Amazon's best face sunscreens** that won't leave you looking like a ghost—and identified the sunscreens for your face that tackle skin concerns from acne to aging. For example, you'll see that shoppers with oily, acne-prone skin love **EltaMD's UV Clear Facial sunscreen**, while those with extra-sensitive skin recommend the **cooling Coola Mineral Face Sunscreen**. Make good use of that Amazon Prime membership and shop these best face sunscreens before summer really heats up.

Best for Sensitive Skin: Coola Suncare Mineral Face SPF 30 Sunscreen

This velvety, nourishing sunscreen is infused with organic ingredients like rosehip oil and shea butter that will soothe even the most sensitive skin. The Coola face sunscreen comes in both tinted and untinted, goes on smooth, and keeps faces shine free on hot days. Customers with extremely sensitive skin say they don't experience any irritation with this face sunscreen, and it actually feels good to put on.
