

## Add On Order Policy Update

Additional players added to Roster once production begins is considered an ADD ON ORDER. We suggest accounting for Sub Players and Add On players when placing the original order. Add On Orders will always follow the same lead times as regular order.

Add on orders if ordering less than 10 of each item do not qualify for discounted pricing and will receive Regular Pricing as noted below. Add On orders require a minimum of 3pcs total to place an add on order. This can be 3 pcs of any item from original order.

Platinum Package Add On Orders with Bags- Sub Series Basketball Back Packs require a minimum of 10 pcs on any order. No add on orders less than 10 are allowed. Please keep this in mind when placing your original order.

Add On Order Frequency Restrictions- In the past we have always done our best to allow as many add on orders as needed. Unfortunately, this policy leaves the potential for orders to be excessively placed causing many disruptions and inefficiencies in manufacturing. **Beginning on 9/1/2021 our policy is no add on order can be accepted until the current order is shipped and received by customer.** If you place an order with us, you cannot place another add on order until the first order or previous add on order is received. This new policy allows us to maintain our competitive pricing, improve lead times and numerous other benefits. Again, we highly encourage you to account for sub players and additional players on your original order to the best of your ability and always consider the add on frequency restriction as well when placing your add on orders.

Regular Pricing as Follows:

- Single \$54.99 each
- Compression Shirt \$44.99 each
