Stockley's Sweets Ltd are an innovative and flexible confectionery supplier who are open to developing bespoke products and packaging in partnership with our customers, alongside supplying our own branded ranges.

Since
1918

The Stockley's Story...

In 1918, Malcolm Stockley returned home from the First World War to his native town of Accrington, Lancashire, to recommence the craft that he had pursued as a younger man, that being the art of toffee making. It was from those humble beginnings, in a shed in the High Street, that the Stockley's name first became recognised as quality confectionery manufacturers.

Stockley's is, in fact, a living tribute to a golden age of confectionery making and is guaranteed to re-kindle fond memories. The tradition, quality and love that is placed into our recipes has made Stockley's one of the most recognised manufacturers in the UK.

Stockley's has since grown into a multi-site business (following the creation of Chocley's Ltd, our chocolate manufacturing facility based in Hull, in April 2017) producing some of the finest sugar and chocolate confectionery, combining traditional manufacturing techniques with modern production facilities and state of the art packing capabilities. The business has also become one of the foremost producers of Sugar-Free, Dairy-Free and Gluten-Free confectionery in the UK.
