

TUZA

RIO | SS17

RIO | SS17

TUZA'S Spring Summer 2017 collection, RIO, meaning River in Spanish is inspired from the concept of water, its movement, energy, fluctuation and life. The collection continues to use a combination of Gold, Silver, and Rose Gold metals, with an update of using a different selection of chains. The shapes of these chains are all inspired by the river and therefore take a softer, more curved, circular form.

With a brand philosophy of maintaining craftsmanship and sustainability, recycled sterling silver is a key quality to Tuza's ethical business practice. Tuza is a symbol of identity, pride and empowerment.
