

JOINT AND MUSCLE FORMULA HERBAL SOLUTION

PRODUCT DESCRIPTION

Joint and Muscle Formula is a 100% natural formula utilizing a premium blend of herbs and nutraceuticals to promote healthy joints, muscles and bones in pets of all ages. Ingredients like Spirulina and Glucosamine serve to nourish and rehabilitate joints and cartilage, while herbs like Devil's Claw, Ginger, Frankincense and Yucca root help to reduce inflammation, pain and swelling. This gentle, safe and effective combination works with the body to improve mobility, range of motion and overall joint health long-term.

The ingredients in Joint and Muscle Formula provide daily, ongoing support of healthy joints, muscles and bones. Pets suffering from conditions such as arthritis can benefit from daily use of Joint and Muscle Formula, and healthy animals can also benefit from daily use for maintenance and preventative purposes. The ingredients in Joint and Muscle Formula are largely well tolerated without side effects, even with long-term use. Many have mixed daily doses of Joint and Muscle Formula with a high protein, low carbohydrate wet food diet to further reduce inflammation in the body and enhance results.

Most pets begin life enjoying flexibility, ease of movement and agility during exercise and play. Regular exercise is one of the best ways to ensure joints stay pain-free and healthy long-term. But even with frequent activity, the stresses of daily life can eventually put a strain on the joints. Cartilage, which protects and buffers the joints against impact, can wear down and result in pain, swelling and reduced mobility over time. Older animals may have difficulty sitting down, standing up, running or jumping onto the couch. Such signs of joint pain and inflammation grow increasingly common with age, but fortunately there are natural options to help reduce and even prevent these symptoms.

DIRECTIONS

Use 2-3 times daily. Drops may be administered directly into the mouth, or mixed with food.

Cats and dogs under 20 lbs: 2-4 drops

Dogs 20-50 lbs: 5-7 drops

Dogs over 50 lbs: 8-10 drops

Product size: 2 FL OZ (59mL), Minimum 2000 drops

INGREDIENTS

Joint and Muscle Formula contains a proprietary blend of the following ingredients in a therapeutic dosage:

Devil's Claw (*Harpagophytum procumbens*) provides long-term support and relief in cases of joint inflammation and immobility. Devil's Claw also has been used successfully to relieve back pain, knee pain and hip pain.

Frankincense (*Boswellia serrata*) is used to relieve pain, inflammation and discomfort in the joints. *Boswellia serrata* is native to India and is typically used in cases of osteoarthritis or rheumatoid arthritis to ease pain.

Ginger (*Zingiber officinale*) helps to reduce stiffness, swelling, inflammation and pain in the joints. Human studies on the therapeutic use of Ginger have shown reduction in knee pain and stiffness when compared to a placebo. This antioxidant herb is consumed as a food in Asia and also helps to promote healthy digestion.

Glucosamine (Glucosamine Hydrochloride) is used widely across the globe to relieve and prevent symptoms of joint pain and immobility. Glucosamine is thought to help slow the degeneration of cartilage, while lubricating the joints to help pets suffering from poor mobility and stiffness in the hips and legs. Results of regular use include improved range of motion, reduced pain and greater mobility.

Spirulina (Organic Blue-Green Algae) is a very nutritious antioxidant food, containing vitamins, minerals and pigments that benefit the joints. Phycocyanin, one of the pigments found in Spirulina, is thought to possess anti-inflammatory properties that make it an effective and safe pain reliever. Spirulina is also thought to provide alkalizing properties, which can be helpful in reducing acidity that may contribute to joint inflammation.

Yucca Root (*Yucca aloifolia*) is native to the Mexico and the American Southwest. Yucca was used in Native American herbalism to relieve pain, inflammation and stiffness in the joints. Yucca is considered to provide gentle and safe anti-inflammatory support.

Inactive ingredients are Purified Water, USP Cane Ethanol Alcohol 20%, USP Vegetable Glycerin.
