

How To Fold The United States Flag

1. Straighten out the flag to full length with the blue section in the upper left.

2. Fold lengthwise, bringing the striped half up over the blue field.

3. Fold lengthwise again bringing bottom edge up to meet the top edge. This puts the upper part of the blue field showing on the top. (Note: A large flag may have to be folded lengthwise a third time.)

4. Fold lower right hand corner to the upper edge to form a small triangle.

5. Fold the triangle left, toward the blue field. The outer point is turned inward on the upper edge of the flag to form a 2nd triangle. Keep folding left until the entire flag is in a small triangular configuration. See the exact steps (5a – 5j) below.
