

### CE-B60 & CE-B120

#### Features:

- 60L & 120L Versions
- 50mm High Efficiency Foam Insulation
- Includes Floor Standing / Wall Hung Mounting Options
- Reduces Heat Pump Cycling & Ensures Correct Flow Rates
- Can be used as a standalone electric boiler.
- Standard 2 1/4" Heating Element Connection
- 1/2" PRV Connection
- Sensor Pockets
- Schematic drawings and advise available.
- Internal Expansion, negates the need for an external expansion vessel subject to piping arrangement.  
(Reduces internal capacity to 45L & 100L)

#### Specifications:

Model No:	CE-B60
Material (Inside and outside tank):	SS304
External dimension:	Ø480*640
Volume internal:	60L
Insulation thickness:	50mm
With wall mounting bracket:	Yes
Max working pressure:	3 Bar
Package size:	560*560*730mm
Weight:	17kg

Model No:	CE-B120
Material (Inside and outside tank):	SS304
External dimension:	Ø560*835mm
Volume internal:	120L
Insulation thickness:	40mm
With wall mounting bracket:	Yes
Max working pressure:	3 Bar
Package size:	630*630*920mm
Weight:	30.7kg
