

NEW RAGE CYCLES

INSTALLATION INSTRUCTIONS

YAMAHA R1 (2017-PRESENT)

FENDER ELIMINATOR

- 1 Remove seats off bike
- 2 Remove (4) screws with philips head screw driver (picture 1)
- 3 Unplug (3) connectors for turn signals and plate light. You can unplug tail light connector to access bolts if it makes it easier for next step
- 4 Remove (3) bolts using a 5mm allen key or socket (picture 2)
- 5 Slide out stock tail section
- 6 Take new blinker assembly, slide wires through hole underneath bike and with provided hardware (3x M6x25mm bolts | 3x M6 tooth washers), mount onto bike (pictures 3/4)
- 7 Plug connectors back into harness and test connections before putting seat back on
- 8 Mount your license plate
- 9 Put seat back on and ride safe
